

## **QUALITY POLICY STATEMENT**

### **OMNIS GROUP**

This quality policy has been approved by the Directors who are totally committed to the actions, procedures and principles embodied in this policy and meeting the requirements of ISO 9001 (Quality Management System) incorporating National Highway Sector Scheme 12D - for installing, maintaining and removing temporary traffic management on rural and urban roads

Omnis Group recognise quality assurance as a vital and integral function in ensuring that the company supplies goods and services in accordance with the explicit requirements of the customer and with the implicit expectations of the industry sector in which it operates.

It further recognises that the responsibility for quality of goods and services is not limited to those specifically designated to maintain that discipline on the company's behalf, but that all employees shall fully appreciate the importance and undertake the duties accordingly.

Each member of Omnis Group and its subsidiaries is totally committed to customer satisfaction and share responsibility for the delivery of quality outputs and services. All members are also committed to continuous improvement in all area of the business.

Our overall objectives are to provide a competent and professional approach to all projects with a high standard of quality and service delivered throughout. Our fully trained, dedicated personnel can give to our customers the satisfaction and assurances that their requirements need.
